Related Deaths in
Cuyahoga County**

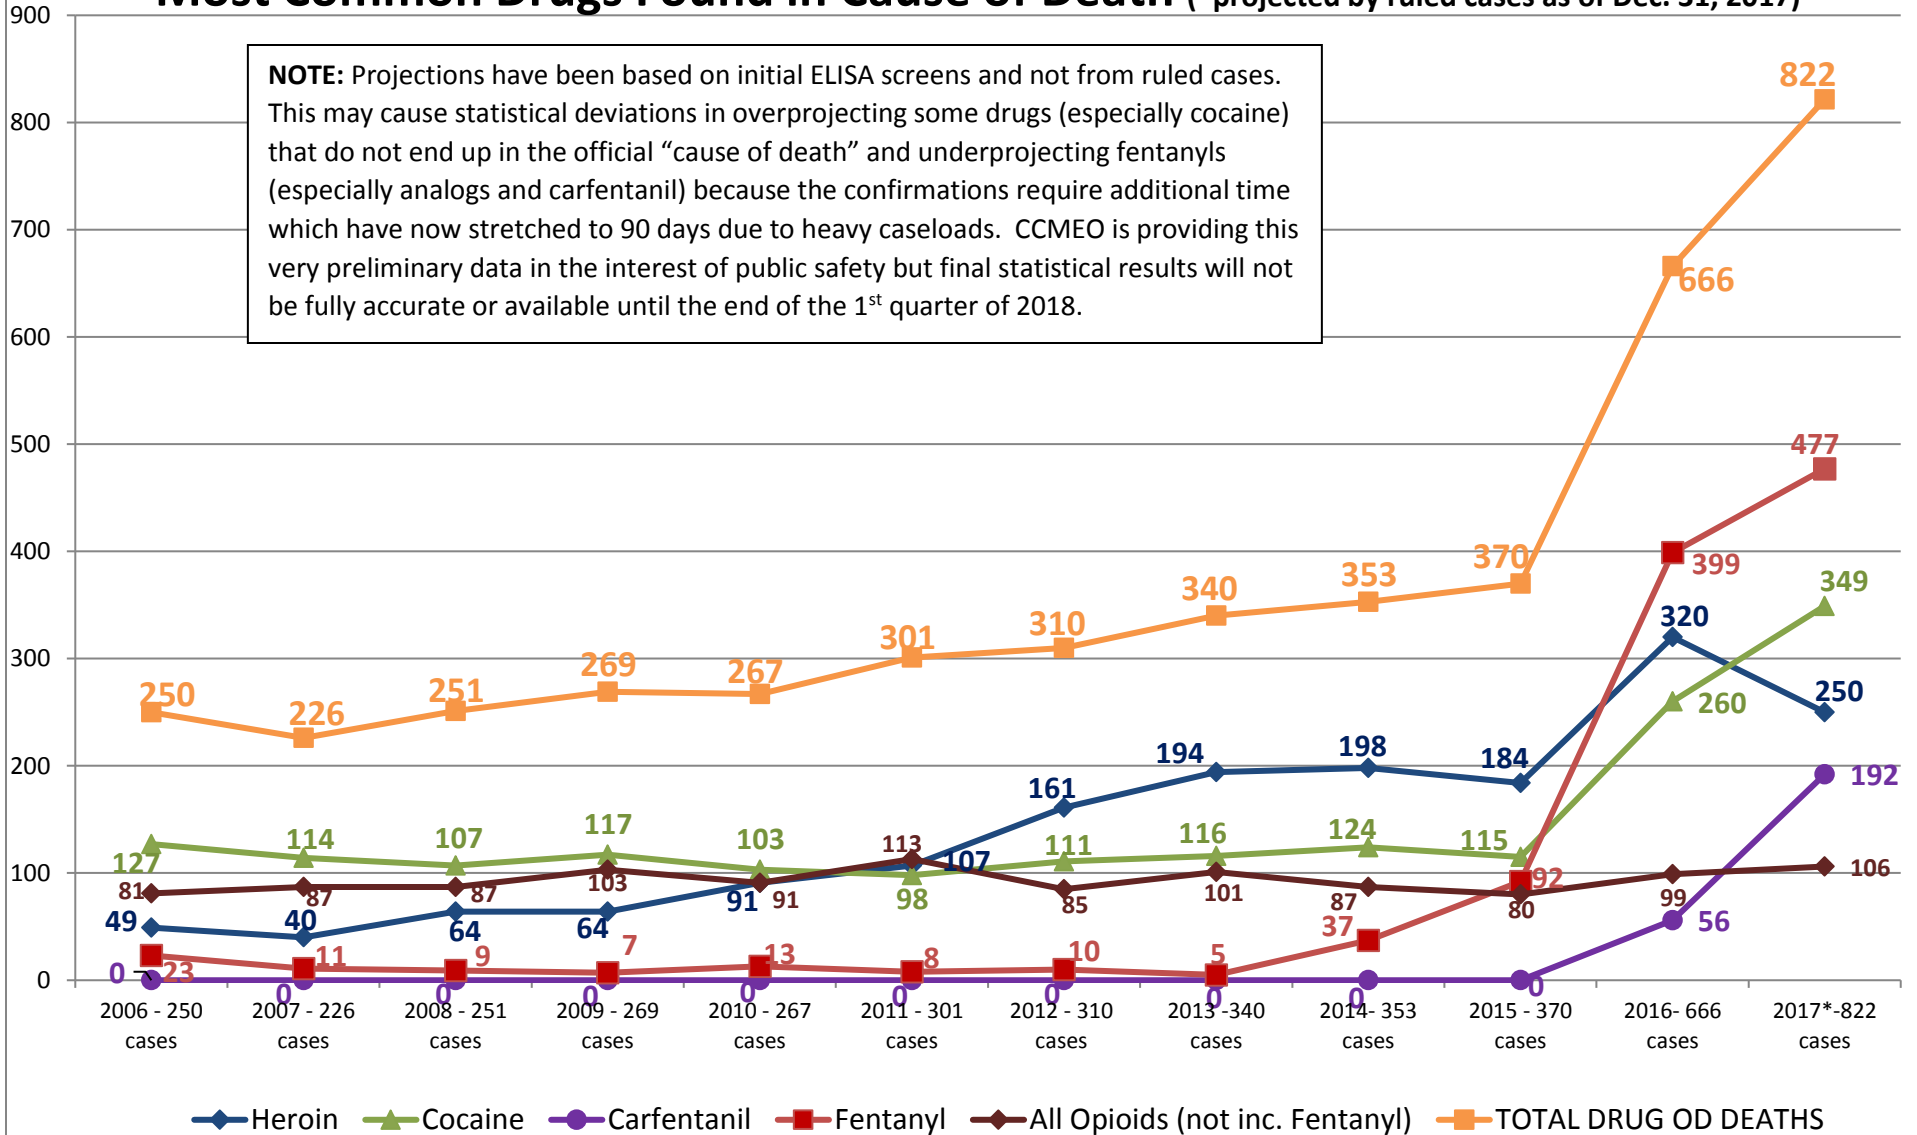

2018 JANUARY UPDATE

FEBRUARY 8, 2018

Cuyahoga County Overdose Deaths 2006-2017*

Most Common Drugs Found in Cause of Death (*projected by ruled cases as of Dec. 31, 2017)

NOTE: Projections have been based on initial ELISA screens and not from ruled cases. This may cause statistical deviations in overprojecting some drugs (especially cocaine) that do not end up in the official "cause of death" and underprojecting fentanyls (especially analogs and carfentanil) because the confirmations require additional time which have now stretched to 90 days due to heavy caseloads. CCMEO is providing this very preliminary data in the interest of public safety but final statistical results will not be fully accurate or available until the end of the 1st quarter of 2018.

CURRENT PUBLIC HEALTH EMERGENCY – At least 11 fatalities since FEB. 1

Fatal Cases due to heroin/fentanyl/analogs in DECEMBER—at least 36 (58 cases pending additional testing)

14 - City of Cleveland Residents

20 - Suburban Residents- Bedford, Bedford Hts., Berea, Brook Park (4), Brooklyn, Euclid, Fairview Park, Garfield Hts., Independence, Newburgh Hts., North Olmsted, Olmsted Falls, Parma (3), Westlake (2) and (2) Out of County – Elyria (Lorain), Zebulon (NC).

VICTIMS

Victims' ages range from 21 – 71

22 Male victims; 14 Female victims

4 African American victims; 32 Caucasian victims (1 hispanic victim)

TRENDS

At least **524** victims have died from heroin/fentanyl/analog or in combination in 2017. This compares to 508 through end of 2016. 2017 total at least **666** fatalities when including cocaine as well.

Carfentanil: 56 CONFIRMED FATAL CASES in 2016; 166 CONFIRMED as of 12/31 in 2017

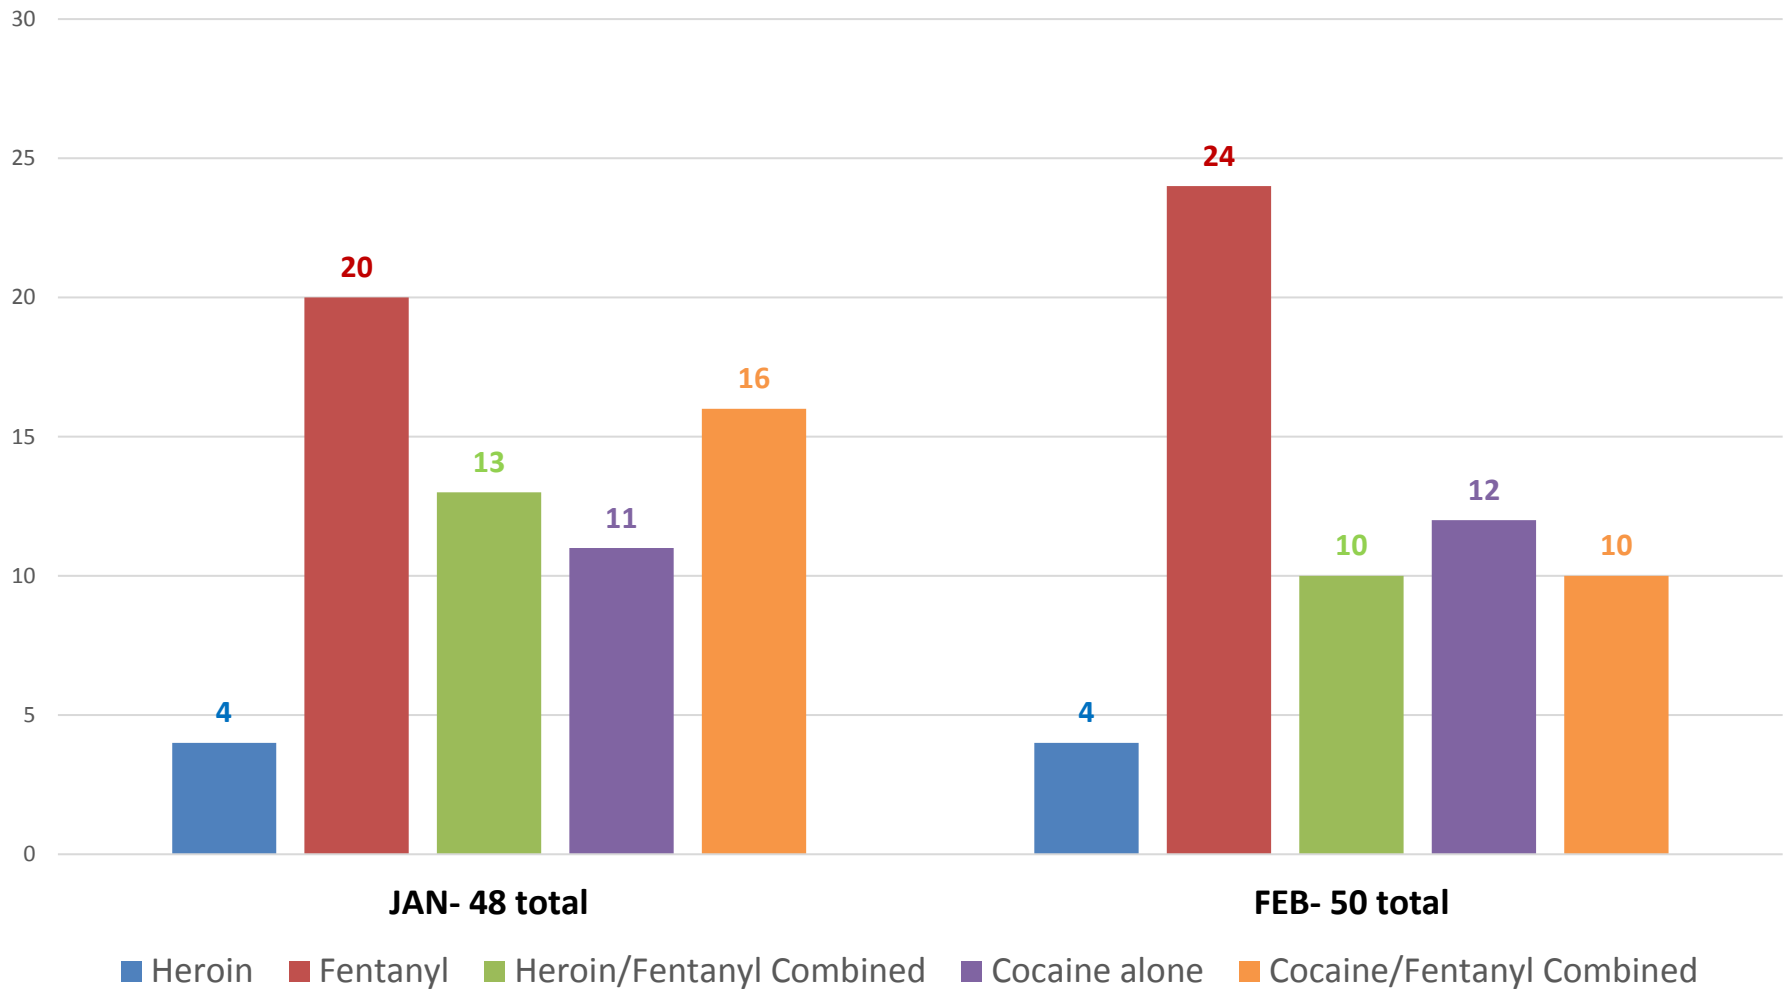

Rate of African American deaths involving fentanyl dropped to 11.1% of all victims, a rate more in line with 2016 (14.5%), than the 20+% in 2017. At least 26 cocaine related deaths occurred in January 2018 (at least 349 for 2017), with at least 14 being mixed with Fentanyl, Heroin or both (at least 200 for 2017).
